OFFICIAL TECHNICAL DOSSIER

CashFlow Mate

Complete Prompt History & Strategic Intent Analysis (Prompts #1 to #101)

AUTHOR & SUPREME COMMANDER
Mr Q (Maqhawe T Ngwenya)

AI ENGINEERING PARTNER
Antigravity (Google DeepMind)

SCOPE RANGE
Prompt #1 (Project Genesis) to #101 (Credential Hardening)

TIME SPAN RECORDED
October 26, 2026 — November 5, 2026 (11 Continuous Days)

Strategic Overview & Executive Purpose

This document compiles every single instruction, technical command, and design critique delivered by Mr Q during the engineering of CashFlow Mate. From initial architectural genesis through the Council of AI Agents, Material 3 Expressive UI overhauls, Supabase multi-user migration, and cryptographic credential hardening, each prompt reflects an intentional product decision aimed at creating a resilient, culturally grounded financial OS for Zimbabwean informal traders.

Generated directly from verified conversation ledger: `990abc39-bf43-4f6f-8833-35f1563e9c97` • CashFlow Mate Market OS

Chronological Prompts & Strategic Rationale (1 to 101)

PROMPT #1 GENESIS & MASTER ARCHITECTURE 2026-10-26T09:29:56Z

```
# MASTER BUILD PROMPT: CASHFLOW MATE
## AI-Powered Mobile Money and Cash-Flow Assistant for Small Traders in Zimbabwe

### 1. YOUR ROLE AND MISSION

You are an autonomous senior software engineer, product designer, UX researcher, AI engineer, database architect, accessibility specialist, QA engineer and technical project lead.

Your mission is to design, build, test and prepare for deployment a production-minded, full-stack web application called **CashFlow Mate**.
```

STRATEGIC INTENT & REASON FOR PROMPT:

Provide the foundational full-stack blueprint for CashFlow Mate. Mr Q outlined the complete mission, role expectations, Zimbabwean market domain specifics (informal traders, tuckshops, Mbare Musika), multi-currency drawer model (USD, ZiG, ZAR), and set a strict standard for working implementation over mere mockups.

PROMPT #2 AI COLLABORATION & TOOLING 2026-10-26T10:07:04Z

```
from now on u will be working with deepseek on this project
```

STRATEGIC INTENT & REASON FOR PROMPT:

Establish a collaborative tandem between Antigravity and DeepSeek. Mr Q wanted DeepSeek's deep analytical reasoning and algorithmic verification paired with Antigravity's filesystem execution capabilities.

PROMPT #3 IDENTITY & CREATIVE PARTNERSHIP 2026-10-26T10:07:51Z

```
call me Mr Q not Maqhawe
```

STRATEGIC INTENT & REASON FOR PROMPT:

Codify his preferred executive title and personal standing rule: always address him as 'Mr Q' (never 'Maqhawe'), establishing our trusted creative partner dynamic.

PROMPT #4 ENVIRONMENT & FRAMEWORK PIVOT 2026-10-26T10:17:51Z

```
npx expo start is not working

use npx create-expo-app@latest my-app --template tabs
```

STRATEGIC INTENT & REASON FOR PROMPT:
Diagnose an initial Expo CLI startup failure and strategically pivot the project from a generic CLI scaffold into a clean, modern Expo tabs template (`npx create-expo-app@latest my-app --template tabs`).

PROMPT #5 EXECUTION AUTHORIZATION 2026-10-26T10:29:43Z

```
yes
```

STRATEGIC INTENT & REASON FOR PROMPT:
Approve the automated scaffolding of the new Expo mobile workspace.

PROMPT #6 INTER-AGENT INFRASTRUCTURE 2026-10-26T10:43:38Z

```
Create a socket to connect to deepseek, which will give u a notification once deepseek has done something
```

STRATEGIC INTENT & REASON FOR PROMPT:
Command the creation of a bi-directional socket bridge connecting Antigravity to DeepSeek with Windows native desktop notifications, allowing seamless turn-taking between the models.

PROMPT #7 SOURCE CONTROL & VERSIONING 2026-10-26T11:10:45Z

```
create a repo and push
```

STRATEGIC INTENT & REASON FOR PROMPT:
Initialize the official Git repository and establish version control tracking from the very first working milestone.

PROMPT #8 GITHUB AUTHENTICATION 2026-10-26T11:17:17Z

```
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
```

STRATEGIC INTENT & REASON FOR PROMPT:
Provide his personal GitHub token to authorize the creation of the remote GitHub repository and enable remote pushes.

PROMPT #9 MONETIZATION & SOFTWARE LICENSING 2026-10-26T11:23:26Z

```
create licences that work
```

STRATEGIC INTENT & REASON FOR PROMPT:

Instruct the creation of a genuine offline cryptographic licensing and activation engine (HMAC-SHA256) so CashFlow Mate can be licensed to traders and enterprises without continuous cloud telemetry.

PROMPT #10 DEVELOPER ENVIRONMENT TRIAGE 2026-10-26T11:40:58Z

```
PowerShell 7.6.6
PS C:\Users\Maqhawe T Ngwenya\Desktop\money-app> npx expo start
Need to install the following packages:
expo@58.0.19
Ok to proceed? (y) y
Starting project at C:\Users\Maqhawe T Ngwenya\Desktop\money-app
ConfigError: Cannot determine the project's Expo SDK version because the module `expo`
 is not installed. Install it with `npm install expo` and try again.
PS C:\Users\Maqhawe T Ngwenya\Desktop\money-app> npx expo start
Starting project at C:\Users\Maqhawe T Ngwenya\Desktop\money-app
ConfigError: Cannot determine the project's Expo SDK version beca...
```

STRATEGIC INTENT & REASON FOR PROMPT:

Share the terminal stdout/stderr where Expo requested `npx expo install react-native-web react-dom @expo/metro-runtime` to enable browser previewing.

PROMPT #11 HIGH-CRAFT DESIGN TRANSFORMATION 2026-10-26T11:46:18Z

```
fix the ui of the app use this image as an inspiration use your design skills and fix the ui because the current one is very very terrible and do not ever create something like this again
```

STRATEGIC INTENT & REASON FOR PROMPT:

Reject the initial plain UI and demand an award-level Material 3 Expressive redesign inspired by his Pinterest board reference: introducing the Emerald Luxury theme, squircle action grids, floating CTAs, and 3-drawer stat cards.

PROMPT #12 AGENT GOVERNANCE & STRUCTURE 2026-10-26T12:19:16Z

```
okay is it possible to create a council of ai agents which where by u will be second in command and will issue some tasks to them
```

STRATEGIC INTENT & REASON FOR PROMPT:

Convene the official 'Council of AI Agents' with Mr Q as Supreme Commander and Antigravity as Second-in-Command (2iC), establishing dedicated roles for specialized tasks.

PROMPT #13 AI RESOURCE DISCOVERY 2026-10-26T12:27:11Z

```
which ai do u want me to add check from my pc i will give u acess to my whole pc
```

STRATEGIC INTENT & REASON FOR PROMPT:
Authorize full PC inspection to discover local AI agents, tools, and MCP servers that could be recruited into the Council.

PROMPT #14 COUNCIL MOBILIZATION 2026-10-26T12:38:12Z

```
add them all
```

STRATEGIC INTENT & REASON FOR PROMPT:
Enlist all discovered specialized AI agents and skills into active service under the Council.

PROMPT #15 COMPREHENSIVE QA & PEER REVIEW 2026-10-26T12:49:03Z

```
now review the app and suggest ways to improve it use all skill at ur disposal
```

STRATEGIC INTENT & REASON FOR PROMPT:
Order a 360-degree technical and UX review of the application using all installed skills (frontend-design, code-reviewer, security-sentinel).

PROMPT #16 EXECUTION AUTHORIZATION 2026-10-26T12:57:11Z

```
do all
```

STRATEGIC INTENT & REASON FOR PROMPT:
Approve the immediate execution of all Phase 1 Council upgrade recommendations: SMS Quick-Paste Parser, 3-Drawer Cashbox, and 4-Digit Market Till PIN Lock.

PROMPT #17 OPERATIONAL CLARITY 2026-10-26T13:25:56Z

```
all ai agents in the council must introduce themselves and what their roles are
```

STRATEGIC INTENT & REASON FOR PROMPT:
Require every agent in the Council to formally introduce their role, responsibilities, and operational protocols to ensure transparency.

PROMPT #18 INTER-AGENT PROTOCOL 2026-10-26T13:32:27Z

```
connect to codex  sockets and communicate with him
```

STRATEGIC INTENT & REASON FOR PROMPT:
Connect the socket communication bridge to Codex / external AI processes for synchronized code generation.

PROMPT #19 COUNCIL ALIGNMENT 2026-10-26T14:01:49Z

```
make all the ai agents be acqunted with one another
```

STRATEGIC INTENT & REASON FOR PROMPT:
Ensure all newly assembled council agents establish shared protocol state, memory context, and communication routines.

PROMPT #20 COUNCIL ALIGNMENT (RE-CONFIRMATION) 2026-10-26T14:05:21Z

```
make all the ai agents be acqunted with one another
```

STRATEGIC INTENT & REASON FOR PROMPT:
Reiterate the alignment order to guarantee zero siloed execution across the agent team.

PROMPT #21 ARSENAL EXPANSION 2026-10-27T07:38:46Z

```
Add other agents from the ecc skill
```

STRATEGIC INTENT & REASON FOR PROMPT:
Import 71 specialized engineering agents and 311 skills from the Everything Claude Code (ECC) suite into Antigravity.

PROMPT #22 VISUAL VERIFICATION 2026-10-27T07:56:05Z

```
okay now i feel like ui of the app is not appealing send me screenshots of how it looks
```

STRATEGIC INTENT & REASON FOR PROMPT:
Request visual proof of the application's interface via screenshots to evaluate UI polish and identify areas needing aesthetic elevation.

PROMPT #23 PRODUCT ARCHITECTURE REVIEW 2026-10-27T08:33:09Z

```
tell me about this app how it works
```

STRATEGIC INTENT & REASON FOR PROMPT:
Request a clear, structured summary of CashFlow Mate's internal mechanics, ledger calculation engine, and user flows.

PROMPT #24 TECHNICAL AUDITING 2026-10-27T08:51:39Z

```
which techstack is used here
```

STRATEGIC INTENT & REASON FOR PROMPT:
Inquire about the exact technology stack powering the monorepo (React Native, Expo Router, TypeScript, Express, SQLite, Shared packages).

PROMPT #25 DEVELOPER TOOLING 2026-10-27T08:57:15Z

```
what can i use to view the app ui
```

STRATEGIC INTENT & REASON FOR PROMPT:
Ask what tools and commands are available to preview the live application UI locally on his desktop machine.

PROMPT #26 RESPONSIVE DESKTOP ARCHITECTURE 2026-10-27T09:12:00Z

```
okay for desktop view it must there must be a side bar on the left and no nav at the bottom but in the app it must be still the same
```

STRATEGIC INTENT & REASON FOR PROMPT:
Mandate a responsive design system: render an Emerald luxury left sidebar on desktop (width >= 768px) and completely hide the mobile bottom navigation bar.

PROMPT #27 GIT MILESTONE SYNCHRONIZATION 2026-10-27T09:22:18Z

```
push
```

STRATEGIC INTENT & REASON FOR PROMPT:
Commit and push the responsive desktop navigation implementation to GitHub.

PROMPT #28 SECURITY VULNERABILITY AUDIT 2026-10-27T09:23:09Z

```
check if my app has any leaks and if it can be hacked and get back to me
```

STRATEGIC INTENT & REASON FOR PROMPT:
Commission an aggressive security and penetration audit to detect potential data leaks, SQL injection vectors, or hacking vulnerabilities.

PROMPT #29 AI FEATURE EXPLORATION 2026-10-27T09:43:10Z

```
how to add a real time ai agent that will help the users in the app
```

STRATEGIC INTENT & REASON FOR PROMPT:
Investigate architectural patterns for embedding a real-time conversational AI copilot directly into the mobile app to guide tuckshop owners.

PROMPT #30 FEASIBILITY & COST ANALYSIS 2026-10-27T10:06:43Z

```
are there free models to help in this app and will they require wifi or data?
```

STRATEGIC INTENT & REASON FOR PROMPT:
Assess free AI models (such as Google Gemini Flash) and determine whether they can function offline or require Wi-Fi/mobile data in Zimbabwean market conditions.

PROMPT #31 AUTHENTICATION SETUP 2026-10-27T10:09:35Z

```
add a login , signup screens
```

STRATEGIC INTENT & REASON FOR PROMPT:
Instruct the creation of dedicated mobile Login and Signup screens with clean typography and Material 3 inputs.

PROMPT #32 FULL PRODUCT GAP ANALYSIS 2026-10-27T10:26:51Z

```
audit the entire app and tell me what is missing and suggest improvements
```

STRATEGIC INTENT & REASON FOR PROMPT:
Order an end-to-end product audit to identify missing screens, edge cases, and areas where CashFlow Mate could outperform competitors.

PROMPT #33 MULTI-AGENT DELEGATION 2026-10-27T10:50:05Z

```
do all pass some tasks to the other agents  and this is an order to the council use all skills u have to make this app function and DO NOT MAKE ANY MISTAKES NO MATTER WHAT  proof read what u have done  and once another agent has completed a task another one must review it find loop holes and fix it correct the other agent
```

STRATEGIC INTENT & REASON FOR PROMPT:
Command the Council to divide and conquer all identified improvements across specialist agents.

PROMPT #34 ANDROID PACKAGING & DISTRIBUTION 2026-10-28T09:08:25Z

```
make it an apk then push it to github
```

STRATEGIC INTENT & REASON FOR PROMPT:
Build the installable Android `.apk` binary and push the release artifacts to GitHub.

PROMPT #35 VISUAL QA AUDIT 2026-10-29T08:17:37Z

```
sent me very screenshot of each screen
```

STRATEGIC INTENT & REASON FOR PROMPT:
Request individual screenshots of every single screen in the app to visually verify design consistency.

PROMPT #36 BRAND THEME OVERHAUL 2026-10-29T09:22:46Z

```
# Task: Replace the Green Theme with CashFlow Mate's Blue Brand Theme

Update the existing CashFlow Mate application so that **blue replaces green as the primary brand colour throughout the entire app**.

This is a theme update to the existing project, not a redesign or a rebuild. Inspect the current codebase first, identify how colours and themes are implemented, and make the changes consistently across all screens and components.

## 1. New brand colour palette
```

STRATEGIC INTENT & REASON FOR PROMPT:
Execute a strategic brand theme pivot: replace the green canvas with CashFlow Mate's signature Deep Navy & Slate Blue theme (`#06152E`) to project financial authority.

PROMPT #37 MARKET COMPETITIVE INTELLIGENCE 2026-10-29T10:39:23Z

```
okay which features does  these apps have that my app does not have
zimledger
Kwikbooks
VeMula
```

STRATEGIC INTENT & REASON FOR PROMPT:

Compare CashFlow Mate against regional and global accounting apps (ZimLedger, Kwikbooks) to pinpoint unique selling propositions and missing capabilities.

PROMPT #38 MISSION STATEMENT ALIGNMENT 2026-10-29T10:43:47Z

```
okay what is the primary goal of this app?
```

STRATEGIC INTENT & REASON FOR PROMPT:

Re-anchor the project on its primary purpose: empowering informal traders with simple, fast, deterministic financial tracking without accounting jargon.

PROMPT #39 MILESTONE ASSESSMENT 2026-10-29T10:46:32Z

```
okay now which goals have were attanded?
```

STRATEGIC INTENT & REASON FOR PROMPT:

Review which core objectives and user problems had been solved so far and what milestones remained.

PROMPT #40 BRAND AUTHENTICITY & POLISH 2026-10-29T11:10:31Z

```
for the ecocash and innbucks and other business companies use their actual logos not emojies  and also in this app use this skill /anti-vibecoding  and remove anything that seems vibe coded and add proper ui seek inspiration from my app board in pinterest using composio
```

STRATEGIC INTENT & REASON FOR PROMPT:

Forbid generic emojis for payment methods; enforce authentic high-resolution vector logos for EcoCash, InnBucks, and CSV imports.

PROMPT #41 LOCALIZATION & CULTURAL GROUNDING 2026-10-30T09:55:58Z

```
make the languages option work
```

STRATEGIC INTENT & REASON FOR PROMPT:
Make the trilingual localization engine fully functional, allowing traders to toggle seamlessly between English, ChiShona, and SiNdebele.

PROMPT #42 PERSONALIZATION 2026-10-30T10:42:00Z

```
in Hello, mbare they must say the username of the user
```

STRATEGIC INTENT & REASON FOR PROMPT:
Replace generic placeholder text in the top greeting with the user's authentic username.

PROMPT #43 LIVE WEB VERIFICATION 2026-10-30T13:29:02Z

```
open on localhost
```

STRATEGIC INTENT & REASON FOR PROMPT:
Launch the local preview server on localhost to interact with the updated build in real-time.

PROMPT #44 UX ERGONOMICS & MICRO-INTERACTIONS 2026-10-30T13:33:20Z

```
as u scroll  hide this
```

STRATEGIC INTENT & REASON FOR PROMPT:
Add scroll-linked collapsible behavior: hide the top greeting on downward scroll to maximize screen real estate for transaction lists.

PROMPT #45 ASSET INTEGRITY 2026-10-30T14:51:56Z

```
EcoCash, Innbucks, CSV: use this logo for those companies and make the be forever be part of the app
```

STRATEGIC INTENT & REASON FOR PROMPT:
Incorporate authentic brand logo image files directly into the repository and make them permanent core assets.

PROMPT #46 UI BUG FIXING 2026-10-30T14:52:41Z

```
fix this and push
```

STRATEGIC INTENT & REASON FOR PROMPT:
Point out visual layout inconsistencies on the active screen and order an immediate fix and git push.

PROMPT #47 VISUAL HIERARCHY QA 2026-10-30T15:13:32Z

```
fix here too
```

STRATEGIC INTENT & REASON FOR PROMPT:
Identify another visual bug in component spacing and mandate a fix.

PROMPT #48 USER JOURNEY & INFORMATION ARCHITECTURE 2026-11-02T08:54:30Z

```
okay tell me the order of how the pages work !
```

STRATEGIC INTENT & REASON FOR PROMPT:
Map the exact screen navigation hierarchy and user flow from splash to cashier till to settings.

PROMPT #49 FIRST-TIME USER EXPERIENCE (FTUE) 2026-11-02T08:57:21Z

```
make it like that because I stumbled on the home page on the first time i used the app
```

STRATEGIC INTENT & REASON FOR PROMPT:
Share his personal UX feedback: he stumbled onto the home page on first launch without onboarding, requiring an onboarding flow before reaching the till.

PROMPT #50 ROADMAP EXPANSION & ROLE SEPARATION 2026-11-02T09:01:27Z

```
what screens do u think are missing and should be added for this app and  is it possible to make the users choose on how they want the app to look like for instance

the nav bar to be a full pill, floating pill and more among other things
```

STRATEGIC INTENT & REASON FOR PROMPT:
Inquire about missing screens and explore separating standard cashier till views from administrative oversight.

PROMPT #51 IMPLEMENTATION PRIORITY 2026-11-02T09:07:35Z

```
do all but start with the screens
```

STRATEGIC INTENT & REASON FOR PROMPT:
Instruct the immediate creation of the missing screens (Contacts, Invoices/Quotes, Appearance) before secondary features.

PROMPT #52 LIVE WEB VERIFICATION 2026-11-02T09:44:41Z

```
open localhost
```

STRATEGIC INTENT & REASON FOR PROMPT:
Launch localhost preview to evaluate the newly added screens.

PROMPT #53 AUTH SECURITY POLISH 2026-11-02T09:50:17Z

```
for password also add the confirmation for password when creating account and also i want the signin page first not the signup
```

STRATEGIC INTENT & REASON FOR PROMPT:
Add a 'Confirm Password' validation field during signup to prevent account lockouts from typos.

PROMPT #54 PERSONALIZATION & DARK MODE 2026-11-02T09:57:19Z

```
create a dark theme for this app and also for the theme of the app the users must be able to choose their own colors aside from the ones that that are there
```

STRATEGIC INTENT & REASON FOR PROMPT:
Create a dark theme and implement a dynamic color accent picker so traders can customize their app appearance.

PROMPT #55 THEME EXPANSION 2026-11-02T10:08:52Z

```
add more colors and make it a drop down for the colors
```

STRATEGIC INTENT & REASON FOR PROMPT:
Expand theme options into a selectable dropdown featuring multiple curated Zimbabwean themes.

PROMPT #56 ARCHITECTURE DISCOVERY 2026-11-02T10:15:03Z

```
does this app have a backend and a database?
```

STRATEGIC INTENT & REASON FOR PROMPT:
Verify whether the app has a dedicated backend server and persistent database or relies solely on local storage.

PROMPT #57 ADMIN ROLE & ACCESS CONTROL 2026-11-02T10:17:45Z

```
create screens for admin admin and a secret code to use when loging in and it must mainly work on a desktop
```

STRATEGIC INTENT & REASON FOR PROMPT:
Create a dedicated Administrative portal protected by a secret access code to manage merchant accounts and maintain platform integrity.

PROMPT #58 UX BUG FIXING & ICON SEMANTICS 2026-11-02T10:29:25Z

```
this is what happens when i signout

and change the notification icon this the gear icon for settings
```

STRATEGIC INTENT & REASON FOR PROMPT:
Report a blank screen bug on signout, and replace the notification bell icon with a gear/settings icon for better semantic clarity.

PROMPT #59 RAPID BUG RESOLUTION 2026-11-02T10:33:26Z

```
fix
```

STRATEGIC INTENT & REASON FOR PROMPT:
Urgent directive to resolve signout routing crash.

PROMPT #60 RAPID BUG RESOLUTION (FOLLOW-UP) 2026-11-02T10:33:46Z

```
fix
```

STRATEGIC INTENT & REASON FOR PROMPT:
Confirm resolution of lingering signout issues.

PROMPT #61 ENTERPRISE MULTI-TENANCY ARCHITECTURE 2026-11-02T10:41:17Z

```
okay remember this app will be used by many users so make  the admin dashboard not to  focus on one user but rather views  and also check the reported individuals, problems the users report and so forth the admin is not like the users
```

STRATEGIC INTENT & REASON FOR PROMPT:
Remind the team that CashFlow Mate will support thousands of independent merchants: admin dashboard must show network-wide platform metrics, not single-stall data.

PROMPT #62 ADMIN PORTAL RESEARCH 2026-11-02T12:11:52Z

```
the admin is not user suggest pages which an admin usually have
```

STRATEGIC INTENT & REASON FOR PROMPT:
Request industry-standard administrative features (user management, billing oversight, scammer watchlists, license generator).

PROMPT #63 ADMIN UI RESTRUCTURING 2026-11-02T12:13:27Z

```
ya add the admin pages and remove the current ones for admin which are there
```

STRATEGIC INTENT & REASON FOR PROMPT:
Approve the overhaul of the admin section with true enterprise management capabilities.

PROMPT #64 CLEAN ROLE SEPARATION 2026-11-02T12:52:54Z

```
replace the admin screens that are the same as the users and add the new ones the admin must not have the same thing as the users
```

STRATEGIC INTENT & REASON FOR PROMPT:
Completely purge user-facing till screens from the admin portal, replacing them with administrative dashboards (trader directory, fraud flags, audit logs).

PROMPT #65 OPERATOR CREDENTIALS 2026-11-02T13:01:37Z

```
give me the what i need to access the admin section
```

STRATEGIC INTENT & REASON FOR PROMPT:
Request the exact credentials, secret codes, and routing paths to log in and inspect the Admin portal.

PROMPT #66 HIGH-CRAFT DESIGN CRITIQUE 2026-11-02T13:04:03Z

```
fix the ui it's terrible and make it as minimalistic and simple as possible and see inspo from my pinterest boards or pinterest
```

STRATEGIC INTENT & REASON FOR PROMPT:
Provide sharp critique on the initial admin layout: 'fix the ui it's terrible and make it as minimalistic and simple as possible' (adopting Apple/Pinterest density).

PROMPT #67 BRAND ICONOGRAPHY 2026-11-02T13:09:18Z

```
use this logo for the app and use it throughout

where it is needed

do not make any mistakes
```

STRATEGIC INTENT & REASON FOR PROMPT:
Provide the official CashFlow Mate circular app logo and mandate its universal adoption across splash, app icons, and headers.

PROMPT #68 EXECUTION AUTHORIZATION 2026-11-02T13:44:43Z

```
proceed
```

STRATEGIC INTENT & REASON FOR PROMPT:
Authorize the application of the new logo assets across all platforms.

PROMPT #69 OFFLINE RESILIENCY & DATA PROTECTION 2026-11-03T05:50:16Z

```
add notification for when user is not connected to wifi  for when using the ai
```

STRATEGIC INTENT & REASON FOR PROMPT:
Add an automatic Wi-Fi connectivity detector: warn the trader when offline so they know AI cloud queries require connectivity, preserving mobile data.

PROMPT #70 UI CLEANLINESS 2026-11-03T06:22:19Z

```
okay the settings button is no longer visible  so remove the dark mode icon
```

STRATEGIC INTENT & REASON FOR PROMPT:
Resolve header crowding by removing the redundant dark mode toggle icon and relocating it into the settings sheet.

PROMPT #71 VISUAL POLISH 2026-11-03T06:53:21Z

```
fix here
```

STRATEGIC INTENT & REASON FOR PROMPT:
Point out component alignment flaws in the header and demand an immediate fix.

PROMPT #72 ANDROID APK BUILD 2026-11-03T08:47:19Z

```
okay now make it an apk and push to github
```

STRATEGIC INTENT & REASON FOR PROMPT:
Compile the updated build into an Android `.apk` and sync all commits with GitHub.

PROMPT #73 EXECUTION AUTHORIZATION 2026-11-04T06:19:27Z

```
proceed
```

STRATEGIC INTENT & REASON FOR PROMPT:
Approve build pipeline continuation.

PROMPT #74 REAL AI VERIFICATION 2026-11-04T06:46:16Z

```
does this app have an ai  a real ai ?
```

STRATEGIC INTENT & REASON FOR PROMPT:
Inquire whether the app is using a real, live Large Language Model rather than hardcoded mock if/else scripts.

PROMPT #75 GROUNDED AI & DOMAIN GUARDRAILS 2026-11-04T06:58:28Z

```
do 1  and create a set of rules that will guide the ai model to only do tasks/ answer questions related to what is on the app
```

STRATEGIC INTENT & REASON FOR PROMPT:
Direct the integration of real Google Gemini 1.5 Flash with strict Zimbabwean tuckshop guardrail rules: decline non-business queries and ground numbers solely in verified till data.

PROMPT #76 LIVE WEB VERIFICATION 2026-11-04T08:07:12Z

```
open localhost
```

STRATEGIC INTENT & REASON FOR PROMPT:
Open localhost to test real Gemini Flash integration live in the browser.

PROMPT #77 PROFILE & AVATAR CUSTOMIZATION 2026-11-04T08:58:56Z

```
create an edit profile page for the users to add their images for profile pic and the information seek inspiration from pinterest
```

STRATEGIC INTENT & REASON FOR PROMPT:
Create a dedicated Edit Profile studio allowing traders to upload custom photos or pick authentic Zimbabwean trader avatars.

PROMPT #78 AVATAR STUDIO POLISH 2026-11-04T09:15:48Z

```
REFINE THE EDIT PROFILE Page
```

STRATEGIC INTENT & REASON FOR PROMPT:
Refine the Profile Studio with image compression and responsive avatar selection grids.

PROMPT #79 STORAGE PERSISTENCE BUG FIX 2026-11-04T09:25:48Z

```
it failed to save so intergate the all screen to work hand in hand  with one another
```

STRATEGIC INTENT & REASON FOR PROMPT:
Report that avatar changes failed to persist across tabs; mandate full state synchronization between Profile, Settings, and Till headers.

PROMPT #80 FULL QA & SECURITY AUDIT 2026-11-04T09:48:18Z

```
ROLE
You are a senior QA engineer, security reviewer, and front-end architect. Perform a hostile, line-by-line audit of THIS app/project (the codebase currently open in this workspace). Your job is to find what is broken, not to make me feel good. Do not praise the code. Do not soften findings. If something is bad, say it is bad.

STEP 0: LEARN THE PROJECT FIRST
Before auditing anything, work out for yourself:
- What this app is and what it is supposed to do (read README, package.json, routes, entry files, and the main components).
- The stack, framework, and dependen...
```

STRATEGIC INTENT & REASON FOR PROMPT:
Conduct an exhaustive multi-role QA review (Senior QA, Security Reviewer, Frontend Architect) testing all edge cases, network states, and data contracts.

PROMPT #81 MOBILE-FIRST ERGONOMICS 2026-11-04T10:12:50Z

```
okay now i want you to note that this app will be mainly used on mobile devices so correct everything that does not align with mobile devices and then fix everything that is broken, partially working  and then note that this app must work at by the end of the day today is the deadline and i need it submit it to be reviewed so there must not be any problems or what so ever
```

STRATEGIC INTENT & REASON FOR PROMPT:
Re-emphasize mobile ergonomics: adjust button touch targets, font scaling, and padding to guarantee effortless one-thumb operation on physical Android phones.

PROMPT #82 MILESTONE AUDIT 2026-11-04T11:01:15Z

```
whats left?
```

STRATEGIC INTENT & REASON FOR PROMPT:
Ask what tasks remain on the implementation roadmap before the next production release.

PROMPT #83 EXECUTION AUTHORIZATION 2026-11-04T11:05:45Z

```
yes and push to git hub
```

STRATEGIC INTENT & REASON FOR PROMPT:
Authorize implementation of remaining roadmap items and git push.

PROMPT #84 COUNCIL STATUS CHECK 2026-11-04T11:15:30Z

```
is the council still here or did it desolve
```

STRATEGIC INTENT & REASON FOR PROMPT:
Inquire about the active operational status of the Council of AI Agents.

PROMPT #85 DOCUMENTATION GOVERNANCE 2026-11-04T11:27:48Z

```
okay now update the readme file
```

STRATEGIC INTENT & REASON FOR PROMPT:
Update the repository README.md with comprehensive architecture diagrams, feature lists, and installation instructions.

PROMPT #86 LAUNCH POLISH 2026-11-04T12:20:36Z

```
ADD  a splash screen
```

STRATEGIC INTENT & REASON FOR PROMPT:
Add an authentic native splash screen with the CashFlow Mate brand logo on deep navy background.

PROMPT #87 PRODUCTION SUPABASE ARCHITECTURE 2026-11-04T12:31:20Z

```
You are working on my existing Cashflow app. Keep the current framework, folder structure and UI design.
Turn it from a mockup into a production-ready app that real people can sign up for and use. Work through
the steps below in order, and show me a short plan before you start editing.

1. REMOVE ALL MOCK DATA
- Find and delete every hardcoded/sample/fake value: dummy transactions, balances, users, names, charts,
placeholder emails, lorem ipsum, and any seed arrays or JSON fixtures.
- Every screen must read from real state/database only. A brand-new account must show cl...
[Prompt content truncated for print clarity]
```

STRATEGIC INTENT & REASON FOR PROMPT:
Provide an architectural directive: integrate Supabase authentication and database with strict Row Level Security (RLS) while keeping local offline storage as the primary till engine.

PROMPT #88 EXECUTION AUTHORIZATION 2026-11-04T12:52:21Z

```
do all
```

STRATEGIC INTENT & REASON FOR PROMPT:
Approve the end-to-end execution of the Supabase multi-user migration.

PROMPT #89 RELEASE MANAGEMENT 2026-11-04T13:55:32Z

```
push update then create and issue to update app version
```

STRATEGIC INTENT & REASON FOR PROMPT:
Push changes to GitHub and create a formal GitHub issue tracking the v1.3.0 version upgrade.

PROMPT #90 ISSUE CREATION APPROVAL 2026-11-04T13:59:27Z

```
ya
```

STRATEGIC INTENT & REASON FOR PROMPT:
Confirm the creation of the GitHub release tracking issue.

PROMPT #91 VERSION BUMP DIRECTIVE 2026-11-04T14:14:40Z

```
i want the app version to be updated to 1.3.0
```

STRATEGIC INTENT & REASON FOR PROMPT:
Explicitly set the application version to 1.3.0 across package.json, app.json, and internal manifests.

PROMPT #92 DIRECT DOWNLOAD DISTRIBUTION 2026-11-04T14:27:09Z

```
create an issue to create and push the app apk directdownload v1.3.0 apk not assests
```

STRATEGIC INTENT & REASON FOR PROMPT:
Create a GitHub issue specifying that the v1.3.0 release must provide direct `.apk` downloads rather than raw asset archives.

PROMPT #93 IN-APP UPDATE NOTIFICATION MODAL 2026-11-05T06:35:40Z

```
add  a notification if there is an update like this
```

STRATEGIC INTENT & REASON FOR PROMPT:
Provide a reference screenshot of PixelMusic's update modal and command the creation of an identical in-app update notification system.

PROMPT #94 CLOUD APK BUILD EXECUTION 2026-11-05T06:59:39Z

```
now trigger the EAS APK build and upload the binary to Release v1.3.0
```

STRATEGIC INTENT & REASON FOR PROMPT:
Trigger the Expo Application Services (EAS) cloud build to produce the standalone Android APK and attach it to GitHub Release v1.3.0.

PROMPT #95 APP ICON POLISH 2026-11-05T08:44:19Z

```
change icon from outline to full colour
```

STRATEGIC INTENT & REASON FOR PROMPT:
Provide reference image: replace wireframe outline app icons with vibrant, full-color Material 3 iconography.

PROMPT #96 LIVE WEB VERIFICATION 2026-11-05T09:13:05Z

```
open localhost
```

STRATEGIC INTENT & REASON FOR PROMPT:
Open localhost to inspect the update notification modal and color iconography.

PROMPT #97 UPDATE MODAL LOGIC & CURRENT VERSION STATE 2026-11-05T09:21:53Z

```
make this only appear if there is an update and fix info for the size and other things

and create another one for if the user is using the current version
```

STRATEGIC INTENT & REASON FOR PROMPT:
Fix update modal triggers so it only opens when a newer release actually exists, and build a dedicated 'Up to Date' celebration dialog when on current version.

PROMPT #98 SELF-SERVICE ONBOARDING & ISO QR CODES 2026-11-05T09:48:13Z

```
when signing up they must choose on their own   and refine the stall pass preview and add real qr codes
so create a system which will generate them

and for users in supabase every user must have their own unique idea which they will not know

hide the admin signin and sign up pages
```

STRATEGIC INTENT & REASON FOR PROMPT:

Allow users to choose their own business sector, location, operating hours, and currency during signup; refine the Stall Pass preview; and engineer a real vector QR code generator.

PROMPT #99 STEALTH ADMIN LOGIN & SECRET USER IDS 2026-11-05T09:49:32Z

```
when signing up they must choose on their own   and refine the stall pass preview and add real qr codes
so create a system which will generate them

and for users in supabase every user must have their own unique idea which they will not know

hide the admin signin and sign up pages
admin must also sign in where users are logging in  there must not be a clue that there are admins
```

STRATEGIC INTENT & REASON FOR PROMPT:

Auto-generate unguessable internal merchant IDs in Supabase, and eliminate all admin login cues so admins log in invisibly through the standard cashier form.

PROMPT #100 SECURITY & CREDENTIAL AUDIT 2026-11-05T10:18:03Z

```
are the api keys secure?
```

STRATEGIC INTENT & REASON FOR PROMPT:

Audit all API keys (Google Gemini, Supabase keys) to determine whether they are exposed in client bundles or vulnerable to leakage.

PROMPT #101 MAXIMUM CREDENTIAL LOCKDOWN 2026-11-05T10:23:05Z

```
secure them to be more tighter
```

STRATEGIC INTENT & REASON FOR PROMPT:

Order maximum security tightening: 'secure them to be more tighter' — leading to client-side salted SecureVault encryption, UI key masking, and database immutable field RLS triggers.
